

COST REDUCTION

DI Q Review

With budgets for capital equipment growing tighter each day, healthcare providers are looking for the most efficient and effective means of obtaining the greatest return on these vital purchases.

Through a strategic partnership with Amerinet, medical facilities can maximize savings on diagnostic imaging capital equipment purchases with Amerinet DI Q Review, a no-cost, confidential program that verifies you are getting the best Amerinet price. Through this program, some member facilities have saved up to 20 percent off the quoted price on imaging equipment.

Maximize Your Savings

This unique program ensures that your facility receives the maximum benefits, discounts and services available through Amerinet contracts, TargetBuys and supplier sales promotions.

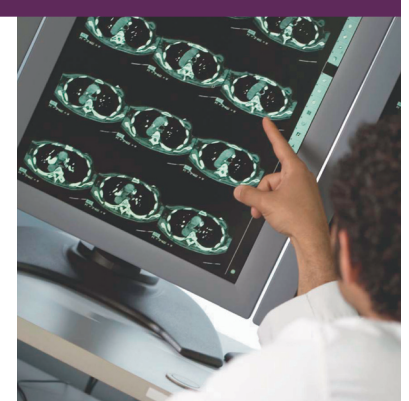

Amerinet DI Q Review is a process that takes just minutes for you to initiate. And since Amerinet's contracting specialists provide the service, Amerinet DI Q Review frees up valuable staff time in your facility, and Amerinet becomes your advocate in the event there are issues with the purchase, installation and/or operation of your equipment.

How It Works

- Members submit any diagnostic imaging capital equipment quotation received from an Amerinet contracted supplier for review.
- The quote is evaluated to ensure that it is consistent with the terms and conditions of current Amerinet contracts, promotions and TargetBuys. All quotes are reviewed within eight business days, with Amerinet's strong commitment to customer service and satisfaction on your side.
- Amerinet contacts the supplier to confidentially discuss any inconsistencies in the quotation, with Amerinet requesting a revised quote if appropriate.
- In addition to the quote review, Amerinet evaluates any savings opportunities on peripheral products and presents them to the member for consideration.

Supplier Approved

Amerinet DI Q Review is supported by Amerinet's supplier partners who realize the benefit of members receiving the right price the first time. Often, quotations issued by a supplier's local sales representative do not incorporate the Amerinet contract, TargetBuy or promotion savings. Additionally, Amerinet's TargetBuys are so aggressive in their terms and conditions that they clearly show the advantages of using a contracted supplier.

“Amerinet's DI Q Review really delivers. It allows our institution to evaluate and determine potential cost-effective solutions to enhance the goals we want to achieve as an organization.”
