

FINANCIAL MANAGEMENT SOLUTIONS

Manage Your Revenue Cycle and Optimize Financial Efficiency

Amerinet Financial Solutions enable healthcare providers to identify and implement margin improvement initiatives in each phase of patient interaction.

Every day, you're working hard to keep expenses low and quality high. But the more complex healthcare gets, the more difficult your job becomes. Today's healthcare environment presents new and complex challenges. These trials can be most apparent with your organization's understanding of the revenue cycle and how to best manage your processes. Amerinet understands. And that's why we developed Amerinet Financial Management Solutions: a simple, yet total answer to helping improve operating margins and do what at times seems impossible – lower costs at the same time you enhance quality and safety.

We provide a comprehensive range of member-focused products and services, delivered by industry leading suppliers. And group purchasing solutions that offer significant savings opportunities for all network members, both hospitals and alternate care sites. Additionally, we have introduced the **Amerinet Alliance for Financial Efficiency**.

The Alliance for Financial Efficiency is a unique partnership of industry leaders coming together to optimize financial performance and improve revenue cycle management. The Alliance is comprised of best of class industry leaders, Craneware and Perot Systems, and

Amerinet Alliance for Financial Efficiency

provides a unique cost effective menu of solutions for Amerinet members using a “best of all worlds” approach – the software, the services and the support. The Alliance offers aligned solutions to reduce costs, generate revenue and achieve financial health for your organization.

Amerinet Financial Management Solutions

Delivering as much as a three to five percent increase in cash collections, Financial Management Solutions improves an organization's bottom line by offering access to suppliers that will assist you in achieving a compelling increase in net cash, with less cost, more patient satisfaction as well as minimum inconvenience and risk. Thanks to aggressive automation and a modern operating model, healthcare providers will not only see better recovery with accounts receivable (AR), but will realize more work accomplished, with less employees and more productivity. Choose Amerinet, and you'll have access to leading financial management solutions – including best practice strategies, new resources and guidance – to help you make even better decisions and improve your bottom line.

Amerinet Financial Management Solutions enable healthcare providers to identify and implement margin improvement initiatives in each phase of patient interaction. Through assessment, implementation and software, providers can make quantifiable, hard-dollar gains in their financial statements. Providers use our tools to:

- ▶ Increase net revenue
- ▶ Increase net collection percentage
- ▶ Reduce the cost of collections
- ▶ Make cash flow more predictable

Our financial management specialists provide the support you need in developing strategic plans and supporting patient care activity. Amerinet and its suppliers offer information and education resources on various topics to members.

- ▶ Quality and Compliance Tools that assist your organization in addressing the myriad of standards that bombard you on a daily basis. From OSHA to workers compensation to HIPAA, Amerinet's specialists are there to help with your concerns and your bottom line.
- ▶ Educational Resources through member conferences, Inquisit[®], our education division and Inquisit I-Link, our comprehensive, online resource.
- ▶ Member resources provides real-time access to members' contract information, purchasing history and financial information as well as 200 Environmentally Preferable Products contacts. As a section of the Amerinet Web site, member resources is a portal to the Web-based tools, programs and services found on www.amerinet-gpo.com.

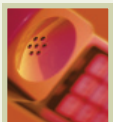

Decision Dashboard™

Decision Dashboard is a powerful software tool that brings critical, relevant and actionable information to every desktop in your organization. It presents information in easy to view graphics and has the power to drill down to the details that mean the most to your organization. Every user sees the data that is within their sphere of influence for the current accounting period – no waiting until the books close – all without the need for IT infrastructure upgrades.

Amerinet Savings RoadmapSM

Amerinet Savings Roadmap is the beginning of an organization's journey to identify realistic and actionable opportunities for contract savings and product standardization, utilizing a competitive portfolio of product and service contracts. This process makes it possible for decision makers to conduct a complete analysis of the total spend. It identifies immediate savings opportunities by displaying key information for executive review and effective decision support.

Savings Roadmap analyzes and compares members' current spend with the Amerinet portfolio to identify exact contract matches. This dynamic reporting tool enhances the decision-making process by creating reports that evaluate total supply chain spend.
