Description: The new National Patient Safety Goal for Medication Safety continues to generate more questions than it answers. This program will provide some clarity for those faced with implementation of National Patient Safety Goals.03.06.01 Medication Reconciliation. Also included will be a focus on Outpatient Encounter and a non -24 hour setting and how that impacts the information required.

Objectives: At the end of this session, the participant should be able to:

- Define Outpatient Encounter and non-24 hour setting
- List the Elements of Performance associated with NPSG.03.06.01
- Describe strategies to implement the revised National Patient Safety Goal

Pharmacy Technician Objectives:

- Describe Outpatient Encounter and non-24 hour setting
- List the Elements of Performance associated with NPSG.03.06.01

Speaker: Judith M. Atkins, RN, MSN

Judith M. Atkins, RN, MSN, and President/CEO of McKenna & Associates will lead this audio conference. Mrs. Atkins has a strong background in hospital administration where she was responsible for nursing services and ancillary departments. Her many years of consulting experience has enabled her to provide education and insight for healthcare organizations who wish to move to standard based leadership. Judith's humorous style gives the audience an opportunity to interact with the speaker. McKenna & Associates was established in 1989 to provide quality educational and consulting services to healthcare organizations.
