## Supplier Credentialing Solutions

Powered by **Vendormate®**

### The Challenges

The responsibility of supplier credentialing and supplier management has grown significantly more complex. Because of that complexity, access to accurate business information is limited.

Amerinet offers a unique, yet practical solution that addresses this critical issue for the group purchasing and health care industry. As one of the nation's leading health care group purchasing organizations, Amerinet needs vital supplier business information to ensure the delivery of high-quality contracts to our members.

### The Opportunities

To ensure standards are met, Amerinet has partnered with Vendormate to introduce a new supplier-credentialing program designed to ensure compliance and obtain accurate supplier business information.

### The Solutions

Powered by Vendormate, Amerinet's supplier credentialing and compliance monitoring solutions provide a pathway for suppliers to clearly identify their credentials and capabilities. Vendormate is a leading supplier relations expert in the health care industry and offers a portal for companies to register and identify business credentials.

### The credentialing process benefits suppliers by:

- ▶ Satisfying Amerinet's corporate contracting compliance requirements
- ▶ Simplifying the tedious and redundant paperwork that is often required to conduct business
- ▶ Managing company information through a secure, private, Web-based dashboard that includes representative, product and compliance information
- ▶ Increasing visibility to Amerinet member organizations nationwide once a contract is awarded

### A Simple 1-2-3 Solution

This new centralized system will enhance business processes because it captures and monitors critical supplier business practice information. ▶▶

## Ongoing Evaluation

Supplier information is monitored on an ongoing basis. Continuous evaluations are completed for compliance issues. Notifications are updated on the Vendormate Web site — [www.vendormate.com](http://www.vendormate.com).

## Registration Information

The annual fee for supplier registration is charged per company and paid directly to Vendormate. Only the first representative to register will be charged the fee. There are no additional costs to add representatives. Amerinet does not receive a fee for services charged.

The fee is used by Vendormate to purchase third-party data, perform screening and credentialing, store compliance information and documentation, perform analytics based on provided information, notify suppliers of training, policy changes and compliance regulations, and monitor and alert company status throughout the year. Suppliers can update their profile at any time by logging into the registration system using a user ID and password.

## To register, you will need the following information:

- ▶ Your name and e-mail address
- ▶ Business name, type, address and phone number
- ▶ Federal Employer Identification Number (EIN)
- ▶ Products sold (based on the UNSPSC codes at [www.unspsc.org](http://www.unspsc.org))
- ▶ Acceptance of corporate company policies

Once you complete the registration process, your company and representative information will be available to Amerinet.

## Learn More About Vendormate

For more information on this supplier credentialing program, contact your Amerinet contract manager at 800-388-2638.

## About Amerinet

Amerinet, a health care group purchasing organization, supports health care providers to deliver high quality care by helping them to more effectively manage their total spend.

Through a suite of tools, programs and services, Amerinet's Total Spend Management Solutions touch every aspect of a health care setting to ensure providers optimize their resources.

Supported by a team of clinical, data and supply chain experts, Amerinet offers a competitive portfolio of product and service contracts to address members' unique and specific needs.

Headquartered in St. Louis, Amerinet serves more than 24,000 acute and non-acute health care providers nationwide.
